Guidelines - FGI

FGI continually monitors adoption of the Guidelines by state, federal, and independent accrediting organizations. Because each state uses the Guidelines differently and may adopt its requirements for different facility types, collecting up-to-date information on state requirements can be difficult. To help in this endeavor, FGI has created an interactive adoption map.

Adoption of the FGI Guidelines - FGI

The Facility Guidelines Institute is the authoritative source for guidance on health and residential care facility planning, design, and construction in the United States. Our consensus-based, research-informed guidelines are used by regulators, designers, builders, and facility owners around the country and abroad to protect public health, safety, and welfare.
