Accounting for Investments

Investments are financial assets which represent a company's right to receive cash from its stake in bonds, shares, real estate, etc. The intent behind making such investments is to generate investment income (interest and dividend) and to benefit from expected capital gain.

CNN

Finance is a term for matters regarding the management, creation, and study of money and investments. Specifically, it deals with the questions

Get Free Accounting For Investments Equities

of how and why an

individual, company or
government acquires the

money needed - called
capital in the company
context - and how they spend
or invest that money.

Finance is then often split
per the following major
categories: corporate
finance ...
