George Orwell's celebrated novella, Animal Farm, is a biting, allegorical, political satire on totalitarianism in general and Stalinism in particular. One of the most famous works in modern English literature, it is a telling comment on Soviet Russia under Stalin's brutal dictatorship based on a cult of personality which was enforced through a reign of terror. The book tells a seemingly simple story of farm animals who rebel against their master in the hope of stopping their exploitation at the hand of humans and creating a society where animals would be equal, free and happy. Ultimately, however, the rebellion is betrayed and the farm ends up in a state as bad as it was before. The novel thus demonstrates how easily good intentions can be subverted into tyranny. Orwell has himself said that it was the first book in which he had tried, with full consciousness of what he was doing, 'to fuse political purpose and artistic purpose into one whole.' The book was first published in England in 1945, and has since then remained a favourite with readers all over the world, and has consistently been included in all prestigious bestseller lists for the past many years.

After the "war with no name" a cat assassin searches for his lost love in Repino's strange, moving sci-fi epic that channels both Homeward Bound and A Canticle for Lebowitz. The "war with no name" has begun, with human extinction as its goal. The instigator of this war is the Colony, a race of intelligent ants who, for thousands of years, have been silently building an army that would forever eradicate the destructive, oppressive humans. Under the Colony's watchful eye, this utopia will be free of the humans' penchant for violence, exploitation and religious superstition. As a final step in the war effort, the Colony uses its strange technology to transform the surface animals into high-functioning two-legged beings who rise up to kill their masters. Former housecat turned war hero, Mort(e) is famous for taking on the most dangerous missions and fighting the dreaded human bio-weapon EMSAH. But the true motivation behind his recklessness is his ongoing search for a pre-transformation friend—a dog named Sheba. When he receives a mysterious message from the dwindling human resistance claiming Sheba is alive, he begins a journey that will take him from the remaining human strongholds to the heart of the Colony, where he will discover the source of EMSAH and the ultimate fate of all of earth's creatures.
