This is one of the most important books ever written on the clandestine world of the UFO cover-up. Grant Cameron and Scott Crain do more than demonstrate the reality of an extraterrestrial presence on Earth. Through tenacious investigation and impeccable research, they shine a light into the CIA, NSA, Air Force, Navy, and other inside groups that have managed this secret for decades. Their conclusion is inescapable and shocking: this is a secret that the insiders themselves struggle to understand and contain.

"Government agencies, at various times, perceive a need to release some UFO information to the public. Some, definitely not all. How do they do it? Always via avenues that leave no one at risk. That means ensuring there is no direct connection between the agency and whomever is doing the actual releasing. It also means the

necessity of mixing in some false information. It means, ultimately, to tell the truth, but tell it with a slant. Until there is a full disclosure of the UFO/ET reality, deniability will remain paramount to those in possession of this great secret." - By the authors, from the book's Introduction.

Italy's War of Liberation takes issue with the apparently prevalent attitude among Allied commanders during World War II that the Italian military was ineffective. O'Reilly recounts the little-known story of the significant contribution made by the Italian military during the Italian Campaign, including the contribution of relatively unacknowledged Italian Partisan formations that fought in Italy, France, Yugoslavia, and Greece. Despite the fact that Italians fought on the front lines with the British and American soldiers, and despite the service of the Italian Navy and Air Force, the Allies refused repeated Italian pleas for more involvement in combat. This book not only attempts to correct the record of military history by illustrating the ways in which the Italians were underutilized by the Allies, but it also serves to paint a fair portrait of the Italian military's substantial efforts to defeat Hitler and eradicate Fascism.

Dopo quasi sette decenni e un milione di casi documentati, di cui circa 200.000 raccolti in un database internazionale, ufficiale e schiacciante, molti governi europei, latinoamericani e asiatici non escludono oggi che la questione UFO esiste, mentre sia la Chiesa che la scienza contemplanò l'esistenza di civiltà aliene avanzate. Roberto Pinotti affronta da sociologo e da studioso di livello mondiale gli scenari conseguenti, che coinvolgono politica, economia e finanza, difesa, intelligence, tecnologia, religione, ricerca storico-archeologica, fenomeni psichici e rapporti psicosociali. La sua attenta analisi gli consente di mettere a fuoco cosa potrebbe in effetti avvenire in seguito a un contatto

This book provides a description of the main macroeconomic models used by the European Central Bank and the euro area national central banks (Eurosystem). These models are used to help prepare economic projections and scenario analysis for individual countries and the euro area as a whole. The volume takes stock of the current macroeconometric modelling infrastructure available

within the Eurosystem, highlighting not only the structures and main features of the models used but also their purposes and underlying model-building philosophies. A bird's eye view of the key details of the design, structure and characteristics of the models is provided, along with information on the responses of these models to a series of standard economic and policy shocks. This is the first time that a comprehensive description and systematic comparison of the main macroeconomic models has been published. This book will be of great interest to Central Bank and government economists, as well as academics, economists and students with an interest in central banking, econometric modelling, forecasting and macroeconomic policy.

The photo on the back cover shows Colonel Ivor Parry Evans, ex-base commander of the Air Force base at Roswell, New Mexico, and father of the author, shaking hands with Major General Douglas Nelson, ex-commander of Area 51. Yes, this is a very rare photo. This and other never before seen photos are included inside Roswell, Area 51, and God. Author Richard Evans saw the 1964 version of what crashed in the Roswell desert and claims to know what crashed in 1947. Part 1 of his book gives critical information needed for readers to solve the mystery. The rest of this exciting story will be told in Part 2. This is a non-fiction book, and will especially appeal to three groups of people. 1. Anyone interested in the truth about the 1947 UFO crash (and other UFOs) near the base at Roswell, New Mexico and in other states such as Washington and Idaho and who want to visit there, and Area 51 in Nevada. 2. Readers interested in military history and biography, specifically B-25 bombardiers in World War 2, the Italian Campaign, the Army Air Corps, the Air Force, the Strategic Air Command, navigators and radar navigators on B-29s, B-50s, B-36s and B-52s, standoff missiles, nuclear bombs and bombers, Atlas ICBM missiles, the Cold War, intelligence operations in the CIC and CIA and from the UK and our other Allies, and military

mysteries in general. 3. Readers interested in new scientific evidence that relates to the origin of life on Earth and the question of God's existence. The book begins with descriptions of the 1947 UFO crash near Roswell in 1947, and then proceeds to three other UFO (UAP) events from 1947 in Washington and Idaho that Evans says are very closely related to the Roswell crash. Precise map coordinates are included throughout the book including the precise location of the 1947 Roswell UFO crash. Evans also gives a tour of the closed base at Roswell including precise map coordinates for the front gate, the hangar where the 1947 UFO debris was loaded and Major Jesse Marcel boarded onto s B-29 before its journey to Fort Worth Army Airfield for press photos, and the exact location of the base hospital where witnesses claimed to see alien bodies. Very surprisingly, these locations can be visited by the reader today! Evans also details the connection to Hitler and Stalin, the base at Area 51, the heroic service of Air Force personnel who knew and kept the nation's most valuable secrets, and the stories of people who risked their own lives to protect all of us. He tells his father's personal story that is worthy of a Tom Hanks or Tom Cruise movie, including being the sole survivor of a B-25 crash, being protected by Tuskegee Airmen, defending an African American in a real-life "To Kill A Mockingbird" event before that famous book was written, and also provides all the information needed for the reader to have a fascinating tour of the actual sites where many related and mind-boggling events occurred. He also tells how his father helped chase Hitler's Nazis out of Italy, Greece, and Yugoslavia, as well as his duties as a Strategic Air Command nuclear bombardier and radar navigator Amazingly, there is a connection between intelligent aliens, the origin of life on Earth, and God. Did life originate on Earth naturally after billions of years, or did life originate when God created it, or was it sent here by intelligent aliens? Many people will be sad to know that science has now eliminated one of those possibilities, and may be surprised at which one. The author is a retired middle school teacher and writes in a way that young people

can understand. However, if you are a parent, you need to know that deaths are mentioned, and a 180 foot hole is described. This book is not for those who will not heed warnings. Richard Evans is married to his precious wife Lorna. They always love to see their two dear married children, their spouses, and four beloved grandchildren.

Con stile letterario e giornalistico, ma sulla scia di illustri storici contro-culturali, Roberto Guerra, che si definisce un " futurista di sinistra " , presenta un pamphlet di fantapolitica in cui immagina un Mussolini rivoluzionario postumo scandaloso e sorprendente, estremizzando, tra il serio e il faceto, le revisioni storiografiche di R. De Felice, E. Nolte e altri. Un Duce che analizza i propri errori storici e parla di alcuni protagonisti della politica contemporanea fino ai nostri giorni, rivendicando quel che i " compagni " non hanno mai voluto ammettere: che proprio Mussolini a suo tempo realizzò il comunismo in Italia!

What is the truth about UFOs and the coming of the New World Order? In his latest release the former military intelligence operative, known as Commander X, offers startling evidence of a top-secret war being waged by the Secret Government and its allies -- both human and alien -- against the people of Earth. Go inside Area 51's notorious underground bunkers where an alien technology has been developed based upon UFO crashes and 'trade deals' with a group of ETs known as the Grays; discover the potential danger of Tesla's Death Ray which can be aimed at any one of us; find out about the existence of HARP, an electronic broadcasting system that is capable of widespread mind control; the chapter on Beam Weapons and the New World Order, offers a rundown on the full and incredible array of electromagnetic transmitters currently in use (and more going into operation every year); also includes an 'insiders' glimpse into the true capabilities of the New World Order and recent updates on the Philadelphia Experiment, Phoenix and
