Practicing consultant and adjunct BI professor Rick Sherman takes the guesswork out of creating systems that are cost-effective, reusable and essential for transforming raw data into valuable information for business decision-makers.

~~Business Intelligence Guidebook by Sherman, Rick (ebook)~~

Business intelligence all starts with the data. As we mention above, businesses have access to more data than ever. Much of that comes from transactional systems, such as CRM systems, ERP systems, inventory databases, HR and payroll systems, and many others. Data used in BI also comes from external sources.
