Corn (Maize) Case Study. Corn or maize is a summer annual C4 crop in the Poaceae, or grass family that has high nutrient demands. Unless soil conservation practices are used, corn fields do not have live roots protecting the soil from erosion and providing other soil quality benefits after harvest in the fall, winter and spring.

Corn was first domesticated by native peoples in Mexico about 10,000 years ago. Native Americans taught European colonists to grow the indigenous grains, and, since its introduction into Europe by Christopher Columbus and other explorers, corn has spread to all areas of the world suitable to its cultivation. It is grown from 58° N latitude in Canada and Russia to 40° S latitude in South ...

This workbook offers an investigative case study for each unit of Campbell BIOLOGY, Ninth Edition, and two case studies that relate to multiple units. Each case study requires you to synthesize information from the textbook and apply that knowledge to a real-world scenario as you evaluate new information, analyze evidence, plot data, or seek explanations.

This book is a printed edition of the Special Issue "Biomass for Energy Country Specific Show Case Studies" that was published in Energies

This workbook offers an investigative case study for each unit of the book. Each case study requires students to synthesize information from one unit of the text and apply that knowledge to a real-world scenario as they evaluate new information, analyze evidence, plot data, or seek explanations. This workbook includes two new case studies: one on avian influenza, and one on hedgehog developmental pathways.

Focused on the particular needs of superintendents of districts of fewer than ten thousand students, the chapters teach students critical frameworks for thinking through and addressing the problems and practices superintendents encounter daily, allowing them to form a detailed and practical understanding of administration and leadership.

This text is an unbound, three hole punched version. Access to WileyPLUS sold separately. Economics of Strategy, Binder Ready Version focuses on the key economic concepts students must master in order to develop a sound business strategy. Ideal for undergraduate managerial economics and business strategy courses, Economics of Strategy offers a careful yet accessible translation of advanced economic concepts to practical problems facing business managers. Armed with general principles, today's students--tomorrows future managers--will be prepared to adjust their firms business strategies to the demands of the ever-changing environment.

This book gives information and guidance on important subjects. It presents the major and efficient applications for efficient insulation materials. The book is divided into two parts. Part I discusses ecological insulation materials. In this part, the three sub-subjects are drafting, Unconventional insulation materials, Jute-Based Insulation Material, and Possible Applications of Corn Cob as a Raw Insulation Material. Part II: discusses Practical Applying and Performance of Insulation Materials (case studies), where three sub-subjects are drafting seismic aspects of the application of thermal insulation boards beneath the building's foundations, flammability of bio-based rigid polyurethane foam thermal insulation, and the review of some commonly used methods and techniques to measure the thermal conductivity of insulation materials.
