Cost Accounting Solution By Maheshwari Mittal Cost Accounting Maheshwari Mittal Ebook Cost Accounting Books. Below is the list of cost accounting book recommended by the top university in India. Cost Accounting - Theory and

On account of the growing importance of the subject of cost accounting, it has been included as a special subject in all commerce and management courses, conducted by different Indian universities and professional institutes. The present volume, Cost Accounting-Theory & Problems, has been written to meet in full measure the requirements of the students preparing for these courses. The entire books has been divided into five sections. Section ONE explains the fundamental concepts which are necessary for the understanding of the subject. Section TWO deals with the principles of costing as applicable to certain specific industries. Section THREE explains the accounting methods. In this section besides others, intricate topics of the cost control accounts and integrated accounts have been discussed with complete clarity and simplicity of exposition. Section FOUR refers to costing as a special tool for managerial control. Adequate space has been given to this recent function of cost accounting. And here topics of budgetary control, standard costing, marginal costing and break even analysis have been elaborately discussed. Section FIVE contains revisionary problems.

This textbook provides students with the knowledge of basic accounting principles and practices concerned with preparing and presenting corporate accounts in a systematic manner. The unique feature of this book is the simplicity of presentation which enables students to understand the subject and solve practical problems with ease. The main strengths of the book are the plentiful illustrative examples and the end-of-chapter exercises with answers. The wide coverage and user-friendly approach makes the book to comprehensively meet the requirements of students studying Corporate Accounting as a subject at B.Com & BBA examinations of different Indian universities based on Choice Based Credit System (CBCS).

Financial Accounting provides a comprehensive coverage to course requirements of students appearing in the paper Financial Accounting at BCom, BCom (Hons) examinations of different Indian universities and Foundation Examination (NS) of the Institute of Company Secretaries of India. The book is divided into four sections: Section I explains the fundamental principles necessary for understanding the subject. It covers the entire accounting cycle—from recording of financial transactions to the preparation of final accounts. Section II deals with accounting problems related to certain specific types of business transactions. Section III deals with partnership accounts. Section IV provides suggested answers to recent examinations' questions.

Financial Accounting for BBA has been written to meet the requirements of undergraduate students, particularly at the BBA level. This book covers the syllabi of major universities across the country, providing basic knowledge of accounting principles and practices in a systematic manner. The topics have been dealt with in a lucid manner to enable better understanding, especially for those students who do not have an accounting background. The text is examination-oriented and is supplemented with relevant solved illustrations for all the topics.

The book provides a comprehensive coverage of the course-content requirements of the students appearing in the paper 'Management Accounting' at the MBA and MCom examinations of different Indian Universities and those of professional institutions. The book has been divided into five convenient sections. Each section covers a different aspect of 'Management Accounting' with the subject divided into chapters covering different topics in a systematic and concise manner. The unique features of this book lie in its simple and systematic presentation of theory, which would enable the students to solve practical problems with ease. The other main strengths of this book are: plentiful illustrative examples and end-of-the-chapter exercises with answers.

Syncretic Islam is a fascinating and brilliant study of the religious thought and career of one of the doyens of Muslim traditionalism in South Asia, Imam Ahmad Raza Khan Bareilvi. An Islamic scholar, jurist and an Urdu poet, Ahmad Raza Khan was the founder of the Bareilvi movement whose defining feature of thought is the active veneration of the Prophet as the most exalted of all beings. This work overviews and analyses the multiple facets constituting Ahmad Raza Khan's intellectual life and, in extension, the Bareilvi school of thought in an eminently accessible manner. It is the story of a remarkable revivalist, born in the North Indian town of Bareilly during British India, who grew up to be hailed by his followers as the mujaddid, or reviver, of Islam in nineteenth-century India. A Pathan by descent, Hanafi by religious mores, Qadiri by disposition and Bareilvi by nativity, Syncretic Islam captures the astounding contribution of Ahmad Raza Khan and attempts to explain his spiritual influence that still binds millions of people in the Indian subcontinent.
