*The World Is No Longer Flat* Culo is an art, fashion, and pop-culture movement that defies all national, cultural, and linguistic boundaries. No matter if you were raised to call it derriere, tush, rear end, or booty, culo is the new epicenter of female sexuality, desire, and empowerment. Over the past decade, some of the world's most celebrated women have subtly shifted our long-held ideals of physical perfection toward a shape that is more authentic and bold. While culo has long been venerated in certain cultures, it is now becoming the object of worldwide mainstream admiration. This emerging global love affair with culo is as much about the blending of African, Latin, European, and Asian beauty as it is about celebrating the female form's most coveted asset. Culo by Mazzucco pays tribute to this phenomenon through a singular artistic vision. In more than 200 photographs and artworks created on location around the world, a diverse group of women—some already legendary, some about to become so—embody the spirit of culo and the start of a new era of beauty.

Many mysteries of the atom have come unraveled, but one remains intractable— what Frank Close calls the "Infinity puzzle". The problem was simple to describe. Although clearly very powerful, quantum field theory was making one utterly ridiculous prediction: that certain events had an infinite probability of occurring. *The Infinity Puzzle* charts the birth and life of the idea, and the scientists, who realized it. Based on numerous firsthand interviews and extensive research, this book captures an era of great mystery and greater discovery. Even if the Higgs boson is never found, renormalization— the pursuit of an orderly universe— has led to one of the richest and most productive intellectual periods in human history.--[book jacket]

Two Scottish cousins—bound by far more than blood ties and the rugged Highlands their clan calls home—must break an ancient curse by marrying outsiders. But, a battle soon erupts as the future of the cursed clan hangs in the balance.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?
