The term 'reward' generally covers all financial provisions made to employees, including cash pay, and the wider benefits package (such as pensions, paid leave). It can also include wider provisions for employees, with the term 'total reward' sometimes used to encompass non-pay benefits. Pay may be divided into two categories:

Reward | Factsheets | CIPD

Reward strategy concerns the design and implementation of reward policies and practices to support and advance organisational objectives. Here you'll find information on strategic, total, international and executive reward, market pricing and job evaluation, how to get the most value out of rewards, reward management, pay, and risks.

Employee Benefits | Factsheets | CIPD

Employee pay is the compensation employers pay to employees for the work they do. We explore the fundamentals of employee pay, rewards and bonuses. Information on Employee Pay | CIPD

Information on Employee Pay | CIPD

Giving employees some form of reward for a job well done is an essential part of remaining a competitive and meritocratic organisation. But for decades our understanding of the role of extrinsic reward in motivation - and, especially, how it works alongside intrinsic rewards (the psychological benefits employees gain from making a meaningful contribution to their workplace) - has been patchy.

Which rewards really motivate your employees? | People ...

'Reward' encompasses everything an employee derives from their work. Extrinsic rewards are tangible, covering pay, bonuses and benefits. Intrinsic rewards are the psychological benefits each employee gains from making a meaningful contribution through their work.
