Fallout 3 contains several references to Hideo Kojima's Snatcher series. Both have deceased NPCs named Gibson who've been murdered identically (slumped against wall, severed head between legs). Both corpses contain "search the house" messages, which refers to a model house in the deceased's respective residences.

- Moral compass choices revealed! Villain or virtuous? Our guide's flowcharts will let you know which road to follow for your chosen path.
- Movie-sized map poster to guide you through the Wasteland.

IDW Publishing and DC Comics are proud to present the greatest tale of the 23rd century! Or is that the 31st century? The crew of the Starship: Enterprise and the Legion of Super-Heroes come face to face as they deal with a changed history and timeline that neither knows the cause of. Traveling to the past and the future to find answers both teams must work together to set things right.

In December 1993, gaming changed forever. id Software's seminal shooter DOOM was released, and it shook the foundations of the medium. Daniel Pinchbeck brings together the complete story of DOOM for the first time. This book takes a look at the early days of first-person gaming and the video game studio system. It discusses the prototypes and the groundbreaking technology that drove the game forward and offers a detailed analysis of gameplay and level design. Pinchbeck also examines DOOM's contributions to wider gaming culture, such as online multiplayer and the modding community, and the first-person gaming genre, focusing on DOOM's status as a foundational title and the development of the genre since 1993. Pinchbeck draws extensively from primary data: from the game itself, from the massive fan culture surrounding the title, and from interviews with the developers who made it. This book is not only the definitive work on DOOM but a snapshot of a period of gaming history, a manifesto for a development ethos, and a celebration of game culture at its best.
