I find that I frequently  
turn to Giancoli for better  
problems and clearer  
examples to show the  
students. It is the best non-  
calculus text I have seen. I  
suppose the best indicator  
is that I enjoy using it. I  
don't find myself on guard  
for the next mistake or poor  
explanation or missing link  
in the thought chain.
