Gparted User Guide - electionsdev.calmatters.org

The filesystem resize ability was long cruffy and unmaintained in parted, which is why it was removed in the 3.0 release several years ago.If you update to the latest parted 3.2, it has a resizepart command that only resizes the partition, and you have to use another filesystem specific utility to resize the filesystem within the partition. In the case of ext[234] that is resize2fs.
