Cryptonomicon is a 1999 novel by American author Neal Stephenson, set in two different time periods. One group of characters are World War II-era Allied codebreakers and tactical-deception operatives affiliated with the Government Code and Cypher School at Bletchley Park (UK), and disillusioned Axis military and intelligence figures. The second narrative is set in the late 1990s, with ...

Oprah's Book Club: Additional Reading About the Holocaust

World War II begins in 1939 like in real-life, but continues well into 1947 with three factions vying for global domination: the Allies (United States, Britain, and the French Empire), the Axis (Nazi Germany [after Adolf Hitler's assassination in 1943], Italy, and Japan) and the Sino-Soviet Union (the USSR and Communist China). A UFO crash in Antarctica the same year the war begins results in ...

A Newbery Honor Book author has written a powerful and gripping novel about a youth in Nazi Germany who tells the truth about Hitler.

For fifty years, Anna Schlemmer has refused to talk about her life in Germany during World War II. Her daughter, Trudy, was only three when she and her mother were liberated by an American soldier and went to live with him in Minnesota. Trudy's sole evidence of the past is an old photograph: a family portrait showing Anna, Trudy, and a Nazi officer, the Obersturmfuhrer of Buchenwald. Driven by the guilt of her heritage, Trudy, now a professor of German history, begins investigating the past and finally unearths the dramatic and heartbreaking truth of her mother's life. Combining a passionate, doomed love story, a vivid evocation of life during the war, and a poignant mother/daughter drama, *Those Who Save Us* is a profound exploration of what we endure to survive and the legacy of shame.

Examining the controversies that have accompanied the publication of novels representing the Holocaust, this compelling book explores such literature to analyze their violently mixed receptions and what this says about the ethics and practice of millennial Holocaust literature. The novels examined, including some for the first time, are: \* *Time's Arrow* by Martin Amis \* *The White Hotel* by D.M. Thomas \* *The Painted Bird* by Jerzy Kosinski \* *Schindler's List* by Thomas Keneally \* *Sophie's Choice* by William Styron \* *The Hand that Signed the Paper* by Helen Darville. Taking issue with the idea that the Holocaust should only be represented factually, this compelling book argues that Holocaust fiction is not only legitimate, but an important genre that it is essential to accept. In a growing area of interest, Sue Vice adds a new, intelligent and contentious voice to the key debates within Holocaust studies.

Swept up in a wave of violence when the Japanese Imperial Army tightens its stranglehold on the Shanghai refuge for thousands of desperate European Jews, surgeon Franz Adler falls in love with a nurse and endeavors to safeguard a refugee hospital.

Hannah resents the traditions of her Jewish heritage until time travel places her in the middle of a small Jewish village in Nazi-occupied Poland.

The New York Times bestseller with more than 1 million copies sold worldwide Inspired by the incredible true story of one Jewish family separated at the start of World War II, determined to survive—and to reunite—*We Were the Lucky Ones* is a tribute to the triumph of hope and love against all odds. “ Love in the face of global adversity? It couldn't be more timely. ” —*Glamour* It is the spring of 1939 and three generations of the Kurc family are doing their best to live normal lives, even as the shadow of war grows closer. The talk around the family Seder table is of new babies and budding romance, not of the increasing hardships threatening Jews in their hometown of Radom, Poland. But soon the horrors overtaking Europe will become inescapable and the Kurcs will be flung to the far corners of the world, each desperately trying to navigate his or her own path to safety. As one sibling is forced into exile, another attempts to flee the continent, while others struggle to escape certain death, either by working grueling hours on empty stomachs in the factories of the ghetto or by hiding as gentiles in plain sight. Driven by an unwavering will to survive and by the fear that they may never see one another again, the Kurcs must rely on hope, ingenuity, and inner strength to persevere. An extraordinary, propulsive novel, *We Were the Lucky Ones* demonstrates how in

the face of the twentieth century ' s darkest moment, the human spirit can endure and even thrive.

n June 1944, Freda Wineman and her family arrived at Auschwitz-Birkenau, the infamous Nazi concentration and death camp. After a cursory look from an SS doctor, Freda's life was spared and her mother was sent to the gas chambers. Freda only survived because the Allies won the war -- the Nazis ultimately wanted every Jew to die. Her mother was one of millions who lost their lives because of a racist regime that believed that some human beings simply did not deserve to live -- not because of what they had done, but because of who they were. Laurence Rees has spent twenty-five years meeting the survivors and perpetrators of the Third Reich and the Holocaust. In this sweeping history, he combines this testimony with the latest academic research to investigate how history's greatest crime was possible. Rees argues that while hatred of the Jews was at the epicenter of Nazi thinking, we cannot fully understand the Holocaust without considering Nazi plans to kill millions of non-Jews as well. He also reveals that there was no single overarching blueprint for the Holocaust. Instead, a series of escalations compounded into the horror. Though Hitler was most responsible for what happened, the blame is widespread, Rees reminds us, and the effects are enduring. *The Holocaust: A New History* is an accessible yet authoritative account of this terrible crime. A chronological, intensely readable narrative, this is a compelling exposition of humanity's darkest moment.

A gripping historical thriller set in 1930s Munich, *Prisoner of Night and Fog* is the evocative story of an ordinary girl faced with an extraordinary choice in Hitler's Germany. Fans of *Code Name Verity* will love this novel full of romance, danger, and intrigue! Gretchen Müller grew up in the National Socialist Party under the wing of her uncle Dolf—who has kept her family cherished and protected from that side of society ever since her father sacrificed his life for Dolf's years ago. Dolf is none other than Adolf Hitler. And Gretchen follows his every command. When she meets a fearless and handsome young Jewish reporter named Daniel Cohen, who claims that her father was actually murdered by an unknown comrade, Gretchen doesn't know what to believe. She soon discovers that beyond her sheltered view lies a world full of shadowy secrets and disturbing violence. As Gretchen's investigations lead her to question the motives and loyalties of her dearest friends and her closest family, she must determine her own allegiances—even if her choices could get her and Daniel killed.

Five shots on Saturday morning changed their fate ... She was a beautiful and happy young woman who lived a fairytale life. Shurka, her beloved husband and their two small children lived in a pretty house in a village in Poland, surrounded by a little garden with lilies. This was their life and nothing could harm it, or so they thought... WWII broke out and though the happy family thought the Germans would never reach their idyllic village, they quickly understood they were wrong and their happiness came to a brutal end. The family had to flee their house and find shelter in a neighboring Ghetto where they realized that the Gestapo was taking Jews away on trucks every night, and they were never seen again. The family decided to escape into the deep dark forest. There, surrounded by animals, they knew that this was their only chance to get away from the real beasts. They had no idea what would await them, but they knew that doing nothing was not an option if they wanted to survive.
