This is the fourth edition of a work which first  
appeared in 1965. The first edition had approximately  
one thousand pages in a single volume. This latest  
volume has almost three thousand pages in 3  
volumes which is a fair measure of the pace at which  
the discipline of physical metallurgy has grown in the  
intervening 30 years.

Handbook on the Toxicology of Metals, Fourth Edition bridges the gap between established knowledgebase and new advances in metal toxicology to provide one essential reference for all those involved in the field. This book provides comprehensive coverage of basic toxicological data, emphasizing toxic effects primarily in humans, but also those of animals and biological systems in vitro.
