Shoes with vegetable tanned leather interiors allow to maintain a dry and comfortable environment. Recent researches have shown that tannin

Get Free Home Tanning And Leather Making Guide

can balance the bacterial population of the shoe, thus acting directly on the cause of the bad smell in a natural and safe way. Vegetable tanned leather with tannins inhibits the formation of unpleasant odors. Tannin prevents the shoe environment from becoming favorable to bacterial proliferation by

Tawing produces white leather. This tanning process is not permanent because the tannins can be flushed

Get Free Home Tanning And Leather Making Guide

out by water. Therefore this type of leather is not washable. Tanning with fats and oils is one of oldest methods known to mankind and has been practised since about 6,000 BCE. Vegetable tanning dates back 4,000 years (Bronze Age).
