Infection Prevention And Control Partial Update

Bookmark File PDF Infection Prevention And Control Partial Update

Infection prevention and control (IPC) is a practical, evidence-based approach which prevents patients and health workers from being harmed by avoidable infections. Preventing health care-associated infections (HAI) avoids this unnecessary harm and at times even death, saves money, reduces the spread of antimicrobial resistance (AMR) and supports high quality, integrated, people-centred health services.

WHO | About us

Infection prevention and control (IPC) aims to prevent or control the spread of infections in healthcare facilities and the community. IPC is a universal discipline with relevance
