Skills is the essential guide for law students, encompassing all the academic and practical skills in one manageable volume.

Few contemporary scholars have done more in their work to develop the idea of responsibility than Nicola Lacey. She ranks alongside thinkers and writers such as HLA Hart and Antony Honoré in developing approaches to understanding responsibility. Like these authors, the influence of her work has spread beyond academia to change the perception of responsibility amongst practitioners. Both Hart and Honoré have during their lifetime had volumes dedicated to their work. This book does the same for Nicola Lacey, marking her ongoing influence and accomplishments in the common law

world through a collection of essays by leading international scholars reflecting and interrogating her contribution to understanding criminal responsibility. Additionally, the book aims to promote the best legal scholarship on responsibility in the common law world and inspire the brightest legal scholars through a collection of essays designed to mark Professor Lacey's ongoing contribution to the understanding of criminal responsibility. The role of Professor Lacey's work in this area (as well as others) cannot be overlooked: her scholarship includes not only a prize-winning biography of HLA Hart himself but numerous articles and tomes on the subject, culminating with her most recent work *In Search of Criminal Responsibility: Ideas, Interests, and Institutions* (OUP 2016). This Festschrift, one of few common law

publications to pay homage to the erudition of a female jurist, can be seen as a continuation of the themes in this book via reflection and interrogation of her work by leading scholars on the topic. The Festschrift will therefore not only be a celebration of her work but also an attempt to take forward intellectual engagement with the topic of responsibility by continued engagement with her ideas. Each author brings new ideas to bear on her work, touching upon important aspects of responsibility that are current in the scholarship: categorization, frameworks for understanding criminal responsibility and the relationships between them, women in criminal law, the history of criminal law, blameworthiness and ascriptions of responsibility, moral responsibility, the role of politics and political economy.

The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline, providing scholars with a comprehensive international resource, a common point of entry into cutting edge contemporary research and a snapshot of the state and scope of the field. To this end, the Handbook takes a broad approach to its subject matter, disciplinarily, geographically, and systematically. Its contributors include current and future research leaders representing a variety of legal systems, methodologies, areas of expertise, and research agendas. The Handbook is divided into four parts: Approaches & Methods (I), Systems & Methods (II), Aspects

& Issues (III), and Contexts & Comparisons (IV). Part I includes essays exploring various methodological approaches to criminal law (such as criminology, feminist studies, and history). Part II provides an overview of systems or models of criminal law, laying the foundation for further inquiry into specific conceptions of criminal law as well as for comparative analysis (such as Islamic, Marxist, and military law). Part III covers the three aspects of the penal process: the definition of norms and principles of liability (substantive criminal law), along with a less detailed treatment of the imposition of norms (criminal procedure) and the infliction of sanctions (prison or corrections law). Contributors consider the basic topics traditionally addressed in scholarship on the general and special parts of

the substantive criminal law (such as jurisdiction, mens rea, justifications, and excuses). Part IV places criminal law in context, both domestically and transnationally, by exploring the contrasts between criminal law and other species of law and state power and by investigating criminal law's place in the projects of comparative law, transnational, and international law.

to examine the normative and conceptual foundations of international criminal law. International criminal law is still an emerging field, and as it continues to develop, the elucidation of clear, consistent theoretical groundings for its practices will be crucial. The questions raised and issues addressed by the essays in this volume will aid in this important endeavor.

Through a theoretical examination of the preventive turn in criminal law and justice which has gained momentum in Anglo-American criminal justice systems since the late-twentieth century, *The Preventive Turn in Criminal Law* demonstrates how recent transformations in criminal law and justice are intrinsically related to and embedded in the

way liberal society and liberal law have been imagined, developed, and conditioned by its social, political, and historical context. Henrique Carvalho identifies a tension between the idea of punishment as an expression of individual justice, and prevention as a manifestation of the need for security and the promotion of welfare. Tracing this tension back to an intrinsic ambivalence within the modern conception of individual liberty, which is both repressed and preserved by liberal conceptions of responsibility and punishment, Carvalho proves that as long as this ambivalence remains unexamined, liberal law has the potential to both promote and undermine individual justice. Engaging with the dominant contemporary literature on criminal law, prevention, risk, security, and criminalisation,

this volume deploys a theoretical perspective developed through a critical analysis of both classical and contemporary works of social and political theory. The book reveals that the pervasiveness of prevention in 21st century criminal justice systems represents not only the consequence of new and unprecedented features of contemporary politics and society, but also the manifestation of essential aspects of the liberal legal and political tradition.
