Ducks, geese and swans The 'wildfowl' are medium to large birds with rather long or very long necks, mostly short, broad bills, short legs and the front three toes joined by webs. There are specialised groups, such as the mergansers ('sawbills'), which have saw-tooth edges to more slender, hooked bills, which help them to grasp fish.

After you have caught a duck, slide one hand under its body and hold its legs firmly. Then you can rest the body of the duck on the lower part of your arm and carry it easily. If you have to move a duck from place to place, you can carry it in a box or a crate with a cover. First, tie the legs of the duck together.
