Coordination of Care. Working as an oncology nurse for a nursing agency in Pilgrim, you will need paly a vital role in coordinating between the sophisticated technologies that are now an integral part of cancer diagnosis and treatment. This process encompasses documentation of medical records, direct patient care, symptom management, participation in therapy, organizing referrals to other healthcare providers, and counseling throughout diagnosis, therapy, and after-care.

**The Many Roles Of An Oncology Nurse**

Since the American Academy of Pediatrics—published guidelines for pediatric cancer centers in 1986, 1997, and 2004, significant changes in the delivery of health care have prompted a review of the role of medical centers in the care of pediatric patients. The potential effect of these changes on the treatment and survival rates of children with cancer led to this revision.
