Auditors use the detection and audit risks in determining the extent of audit procedures to be performed. Explanation. Detection risk is a risk that the auditors or the audit procedures will not detect the existing material misstatements in the financial statements. Audit risk is a risk that the auditors will not be able to issue the appropriate opinion regarding the client's financial statements.

### *[Solved] Chapter 5, Problem 5-1 - Principles of Auditing ...*

5-5 Because inherent risk and control risk are a result of characteristics of the client and its internal controls, auditors assess them. Because detection risk is a function of the effectiveness of the audit procedures used to gather evidence, it is restricted to the appropriate level based on the scope of procedures performed.
