Psychology | Homework Help | CliffsNotes Freud (1923) saw the personality structured into three parts (i.e., tripartite), the id, ego, and superego (also known as the psyche), all developing at different stages in our lives. These are systems, not parts of the brain, or in any way physical. The id is the primitive and instinctive component of personality.

Theories of Personality | Simply Psychology Personality psychologists study the personality differences between people to understand what makes each person unique. These factors can be cultural, conditional and situational and they may be common or specific to each person in a given environment. They have to consider the rationality behind certain actions of individuals.
