The trusted training resource for pharmacy technicians at all levels. The role of pharmacy technicians is rapidly expanding, and demand for well-trained technicians has never been higher! Technicians are assuming more responsibilities and are taking on greater leadership roles. Quality training material is increasingly important for new technicians entering the field, and current technicians looking to advance. Look no further than the new 5th edition of the best-selling Manual for Pharmacy Technicians to master the practical skills and gain the foundational knowledge all technicians need to be successful.

This book will enable readers to understand the principles underpinning the management of pain which a particular emphasis upon the care of the older adult. The chapters will explore concepts that are recognised to be involved in the pain experience but each author will then add their own unique perspective by applying the principles to their specialist area of practice and the care of the older adult. It is structured to include the aims and outcomes of the chapter at the beginning so that readers can track their progress, and provides chapter outlines and further reading suggestions for this unique topic area.

Health Sciences & Professions

The best pocket drug guide yet! Rely on this handy reference for at-the-bedside guidance on the safe administration of medications to adult, pediatric, and geriatric patients, as well as pregnant and lactating women, and those with renal impairments.

The Essence of Analgesia and Analgesics is an invaluable practical resource for clinicians giving pain relief in any clinical setting, describing the pharmacologic principles and clinical use of all available pain medications. As well as detailed overviews of pain processing and analgesic theory, sections are dedicated to oral and parenteral opioid analgesics, neuraxial opioids, NSAIDs, local anesthetics, anticonvulsant type analgesics, NMDA antagonists, alpha adrenergic analgesics, antidepressant analgesics, muscle relaxants, adjuvant medications, and new and emerging analgesics. The concise format of the chapters allows for quick and easy reading and assimilation of information. Enhanced by summary tables and figures, each chapter provides an overview of a particular drug, covering chemical structure, mode of activity, indications, contraindications, common doses and uses, advantages and disadvantages, and drug related adverse events. Key references are also provided. Edited by leading experts in pain management, this is essential reading for any clinician involved in pain management.

The world's leading source of evidence-based guidance on caring for patients at the end of life. Featuring the content of the

world's most widely read medical journal, plus completely new, never-before-published content. Perfect for medical students, trainees, and clinicians alike. Market / Audience Medical students: 18000/yr US, 250,000 global NP and PA students: 25,000/yr US, 50,000+ global IM and FP residents: 30,000 US, 60,000 global IM and FP clinicians: 140,000 US, 300,000+ global Palliative medicine: 3000 US Oncology: 20,000 US, 60,000 global Social workers About the Book In the tradition of the User's Guides to the Medical Literature, and The Rational Clinical Examination, JAMA/Care at the Close of Life is based on a widely successful series of articles appearing over the course of the last ten years in JAMA, the world's most widely read medical journal. The series is directed by Stephen McPhee, a leading authority of end of life care, and the chief editor of our market leading Current Medical Diagnosis and Treatment text. The articles in the series cover fundamental topics and challenges in caring for patients who have been given a terminal diagnosis. Featuring a strong focus on evidence-based medicine, and organized by clinical cases, the articles are widely read by faculty, medical students, and clinicians who, frankly, have not been given a solid educational experience on this very important medical issue. The book will be physically modeled after The Rational Clinical Examination, in a full color format that highlights the clinical cases. It will be well suited for use as an required or recommended textbook for medical, PA, and NO students, and as a clinical reference text for trainees and practicing physicians and nurses. Key Selling Features Based on highly regarded content from the world's most widely read medical journal All content is completely updated, and extensive new, never-before-published content has been added Case-based, and evidence-based, so its a perfect fit for the way medical students and residents like to learn Focuses on practical, real-world issues for primary care physicians, and avoids esoteric issues of interest only to specialists in palliative care Full color format, modeled after the highly regarded Rational Clinical Examination Includes multimedia materials available on line: Power Point slides for teaching, and video interviews with patients in end-of-life care, so that faculty and students get supplemental resources for learning the art and science of care at the end of life Evidence-based guidance from the world's leading medical journal, on a critical topic that has been neglected in medical education and training until recently. Author Profile JAMA is the world's most widely read medical journal, and has a reputation for excellence in evidence-based medicine. Stephen McPhee has high visibility on account of his editorship of CMDT, and for his driving role in enhancing end of life care in medical education and training programs. He is: Professor of Medicine, UCSF School of Medicine, San Francisco CA

This book is written for any clinician who encounters substance abuse in a patient and wonders what to do. Experts from a cross-section of specialties and health professions provide up-to-date, evidence-based guidance on how non-expert clinicians can recognize, understand, and approach the management of substance abuse in their patients. They detail the range of treatments available and whether and how they work. The central importance of using a carefully selected multimodal approach that is tailored to the individual patient is emphasized throughout and illustrated in case scenarios from actual clinical practice.

This practical and timely book provides comprehensive, state-of-the-art guidance on how primary care clinicians can best

## Download Free Roxanol Sublingual Manual Guide

care for patients with substance use disorders. The book covers the major drugs of abuse, as well as the more recent ones, detailing the biology of various addictions and all dimensions of clinical diagnosis and management. It is organized in four parts: (1) The Basics, (2) Psychoactive Substance Dependencies, (3) Diagnosis, Treatment, Recovery, Relapse, and the Family, and (4) Special Groups. Part I, The Basics, consists of an overview, the various definitions of substance dependence, and the pharmacology of addictive substances. Chapter 1, Overview, is an introductory chapter that covers material common to the entire field of substance dependence. Chapter 2 covers the various definitions of substance dependence, and Chapter 3 reviews the pharmacology of addictive substances. Part II, Psychoactive Substance Dependencies, explains the various drug dependencies—alcohol dependence, sedative-hypnotic dependence, opioid dependence, stimulant dependence, nicotine dependence, cannabis dependence, dissociative dependence, inhalant dependence, hallucinogen dependence, and anabolic steroid dependence. Part III addresses diagnosis, treatment, recovery, relapse, and the family. Part IV, Special Groups, discusses substance dependence in women, adolescents, the elderly, ethnic minority groups, co-occurring disorders, LGBT patients, HIV positive patients, and the impaired physician. In addition to primary care physicians, Substance Use Disorders: A Guide for the Primary Care Provider will serve as an invaluable resource to primary care nurse practitioners and physician assistants, as well as medical students, primary care residents, emergency medicine physicians, ASAM and APA certified addictionists and those studying for certification in those specialties, psychiatrists, psychologists, and alcohol/drug counselors.
