New York State Office of Children and Family Services (OCFS)

Next, students learn to find the remainder using the process of "multiply & subtract". This is a very important step! The "multiply & subtract" part is often very confusing to students, so here we practice it in the easiest possible place: in the very end of the division, in the ones column (instead of in the tens or hundreds column).

How to teach long division: a step-by-step method
