Test Driven

Development (TDD) is software development approach in which test cases are developed to specify and validate what the code will do.

In simple terms, test cases for each functionality are created and tested first and if the

## Test Driven Web Development with Spring Boot & React Test Driven

Development (TDD) is a strategy for ensuring code is sufficiently considered. A piece of functionality (typically a component in React, or a utility) is crafted not by writing code first, but by writing one or more tests (specs) first. Only
