show how much power you will need to get your drone back home. Flight Mode: There are three flight modes that can be displayed in the DJI GO 4 app: Positioning mode (P-mode): P Mode is when all the drones ' sensors are active, so the drone should always be stable. This is the safest mode to the fly the drone in as if you take your hands off the control sticks then the drone will automatically brake and then hover in position.

Until the end of 2020 the only way to operate a drone for commercial gain remains the CAA Standard Permission, generally known as the Permission for Commercial Operations or PfCO. Our GVC course allows you to apply for a PfCO and will future proof your qualification when the new regulations come into effect on 31st December 2020.
