A business parable that teaches the value of cultivating multiple streams of income—the surest, most achievable means of creating generational wealth. The Honey Bee tells the story of Noah—a disappointed, disaffected salesman who feels like his life is going nowhere until the day he has a chance encounter with a man named Tom Barnham, the beekeeper. In his charming, down-home way, Tom the “Bee Man” teaches Noah and his wife Emma how to grow their personal wealth using the lessons he learned from his beekeeping passion. Full of concrete lessons delivered through chapter after chapter of engaging vignettes, each of which includes actionable advice for new or aspiring entrepreneurs. Workbook-style sections at the end of each chapter help bring the lessons home, including questions to help you apply the lessons to your own business, and links to rich digital resources for even more information on how to get started creating your own multiple streams of income.

THE BESTSELLING AUTHOR OF PITCH ANYTHING IS BACK TO FLIP YOUR ENTIRE APPROACH TO PERSUASION. Is there anything worse than a high-pressure salesperson pushing you to say "yes" (then sign on the dotted line) before you're ready? If there's one lesson Oren Klaff has learned over decades of pitching, presenting, and closing long-shot, high-stakes deals, it's that people are sick of being marketed and sold to. Most

of all, they hate being told what to think. The more you push them, the more they resist. What people love, however, is coming up with a great idea on their own, even if it's the idea you were guiding them to have all along. Often, the only way to get someone to sign is to make them feel like they're smarter than you. That's why Oren is throwing out the old playbook on persuasion. Instead, he'll show you a new approach that works on this simple insight: Everyone trusts their own ideas. If, rather than pushing your idea on your buyer, you can guide them to discover it on their own, they'll believe it, trust it, and get excited about it. Then they'll buy in and feel good about the chance to work with you. That might sound easier said than done, but Oren has taught thousands of people how to do it with a series of simple steps that anyone can follow in any situation. And as you'll see in this book, Oren has been in a lot of different situations. He'll show you how he got a billionaire to take him seriously, how he got a venture capital firm to cough up capital, and how he made a skeptical Swiss banker see him as an expert in banking. He'll even show you how to become so compelling that buyers are even more attracted to you than to your product. These days, it's not enough to make a great pitch. To get attention, create trust, and close the deal, you need to flip the script.

It's an insidious disease that is crippling companies, destroying our economy, and crushing potential. It's infecting the very roots of business performance, and it's spreading fast. It isn't the recession, market volatility, scandal, or greed. It's entitlement. And it may be killing your business. In myriad ways, entitlement has been cultivated for decades. As a result, too many employees today believe that they are entitled to a paycheck simply because they show up. Brad Hams has proven that we are not doomed to a path of entitlement and dependence. After more than 15 years working with hundreds of companies, he knows that the vast majority of employees addicted to entitlement actually want to engage, want to contribute, and feel much better about themselves when they are in an environment that requires them to do so. Now, with Ownership Thinking, Hams shares his strategy that will increase your company's productivity, employee retention, and profitability: The Right Education: Teach employees the fundamentals of business and finance, how their company makes money, and how they add-or take away-value. The Right Measures: Identify the organization's Key Performance Indicators and teach employees to forecast results in an environment of high visibility and accountability. The Right Incentives: Create incentive plans that are self-funding and clearly align employees' behavior to the organization's business and financial objectives. Your employees will learn to think and act like owners and will become active participants in the financial performance of the business. They will gain the self-esteem that is only possible through achievement and will reap rewards that are in alignment with the success of their organization. Meanwhile, you will enjoy your role more, sleep better at night, and leave a legacy that is far more inspiring and significant than you dreamed possible. Praise for Ownership Thinking "You would have to read a dozen other books to even come close to Ownership Thinking—a systematic and practical process for getting your employees to give that extra effort and brain power we know they possess." —Verne Harnish, CEO, Gazelles; author, Mastering the Rockefeller Habits "Brad Hams tells it like it truly is: transparency creates trust; trust creates engagement; engagement creates a healthy enterprise. This thoughtful and practical book shows you how to achieve all of these things and more." —Chip Conley, founder and executive chair, Joie de Vivre; author, Peak "Comprehensive and marvelously clear, Ownership Thinking's techniques for creating change are focused, direct, and motivating. This is a wise book, unusually useful, and I recommend it most highly." —Judith M. Bardwick, Ph.D., author, Danger in the Comfort Zone and The Psychological Recession "Brad Hams is one of the most persuasive and creative thinkers I know. His book is a specific guide you can (and should)

implement now." –Corey Rosen, founder, National Center for Employee Ownership "Hams is masterful at outlining the engagement practices that inspire people to care and to be deeply vested in business results." –Jim Haudan, CEO, Root Learning; author, The Art of Engagement "Hams' book is like a candid conversation with a wise friend. . . . A 'must read' for any business leader wanting to create a culture of ownership." –Dean Schroeder, author, Ideas Are Free

This book reveals how anyone can skip the competition and get started with small apartments – whether new or experienced. Through detailed explanation and over 40 case studies, you'll learn how to make money by wholesaling, buying, and/or rehabbing small apartment buildings – using none of your own cash or credit, and with no prior experience. You will discover the step-by-step approaches for finding deals, qualifying deals, finding buyers, finding investors and monetizing your small apartment deals; plus how to scale-up to larger apartments. This book contains the know-how and the motivation for you to jump to the fast lane and start doing small apartment deals now. Since 2002, when he bought his first small apartment nothing-down, Lance Edwards has done apartment deals ranging from 3 units to nearly 300 units. And since 2007, he's also been teaching others how to escape the rat race faster and play bigger – by starting with small apartments.

To have any hope of succeeding as a manager, you need to get your people all in. Whether you manage the smallest of teams or a multi-continent organization, you are the owner of a work culture—congratulations—and few things will have a bigger impact on your performance than getting your people to buy into your ideas and your cause and to believe what they do matters. Bestselling authors of The Carrot Principle and The Orange Revolution, Adrian Gostick and Chester Elton return to answer the most overlooked leadership questions of our day: Why are some managers able to get their employees to commit wholeheartedly to their culture and give that extra push that leads to outstanding results? And how can managers at any level build and sustain a profitable, vibrant work-group culture of their own? These leading workplace experts teamed up with research giant Towers Watson to analyze an unprecedented 300,000-person study, and they made a groundbreaking finding: managers of the highest-performing work groups create a "culture of belief." In these distinctive workplaces, people believe in their leaders and in the company's vision, values, and goals. Employees are not only engaged but also enabled and energized (termed the three Es), which leads to astonishing results—average annual revenues three times higher than for organizations lacking such a positive culture. And this was true during a period that included this most recent recession. Based on their extensive consulting experience and in-depth interviews with leaders and employees at exceptional companies such as American Express, Cigna, Avis Budget, Pepsi Bottling, and Hard Rock, the authors present a simple seven-step road map for creating a culture of belief: define a burning platform; create a customer focus; develop agility; share everything; partner with your talent; root for each other; and establish clear accountability. Delving into specific how-tos for each step, they share eye-opening stories of exceptional leaders in action, vividly depicting just how these powerful methods can be implemented by any manager. All In draws on cutting-edge psychology and all of the creative genius that have made Gostick and Elton a must-read for leaders worldwide. This vital resource will empower managers everywhere to inspire a new level of commitment and performance.
